ABOUT ME

I am a Computer Science student with a passion for software development and problem solving. I enjoy learning new technologies and applying my knowledge with academic and personal projects. I have a good background in programming, data structures and web based technologies, and I am constantly working to improve my technical skills. I am looking forward to getting practical experience, contributing to meaningful projects and developing myself as a professional in the area of technology.

PROJECT EXPERIENCE

ProgressGrid – Personal Habit & Progress Tracking Application

- Developed a personal online application to analyze consistency over time and track everyday activities and routines.
- To assist users in understanding their activity completion, a dashboard featuring daily, weekly, and monthly progress visualizations was created.
- Built the application using HTML, CSS, JavaScript, Java Spring Boot, and MySQL.

MediCore – Medical Information Retrieval System

- Built a healthcare RAG system to retrieve relevant information from medical reference documents.
- Processed medical PDFs using text extraction, chunking, and semantic embeddings.
- Used FAISS for relevant document retrieval and Gemini for generating grounded responses.

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY, KTR

- B.Tech – Computer Science & Engineering
- Developing skills in C, C++, Python, Data Structures & Algorithms.
- Working on academic and personal projects in software development.

TIRUMALA JUNIOR COLLEGE, RAJAHMUNDRY

- Achieved an overall score of 93.4% in Intermediate.
- Completed higher secondary education with a strong academic record.
- Built a foundation in Mathematics, Physics, and Chemistry.

SKILLS

- Java
- Python
- C++
- MySQL
- HTML
- UI/UX Design

LANGUAGES

- Hindi
- English
- Telugu
- Tamil
